**WE URGE YOU
TO BUY NOW BECAUSE**

TRANSPORTATION

Freight and express priorities are coming, and more time must be allowed for transportation of your order.

MANY STOCK ITEMS NOT REPLACEABLE

Many items now in our stocks are not replaceable and when merchandise on hand is sold out there will be no more for the duration.

LEATHERETTES and MOULDINGS

Our stocks are now complete and large. The plants which manufactured leatherettes are now making them for planes, tanks and jeeps, as well as balloons, cloth and waterproof hospital sheeting. No deliveries are being slowed. The manufacture of various metal and foil wood covered mouldings has been accelerated.

NATURAL PRESERVED HOLLY WREATHS

Our natural preserved holly wreaths are made of the finest imported holly. However, we cannot find any that our stock will last the whole season.

METALS

Most all display items that contain any metal of any kind are no longer being manufactured for instance:

ELECTRICAL ITEMS

No metal spotlight holders, no metal color film, color wheels, decorative Christmas bulbs, etc. C. O. P. and string sets, no electric made wreaths, garlands, trees, etc. have been manufactured for some months. We have stocks now.

TINSEL GARLANDS

Garlands made of copper wire, silver plated wire, etc. as far as further manufacturing is concerned, we have stocks now.

GENUINE ALUMINUM

A large lot of aluminum of various sizes and shapes was purchased early in the season. It is now in the hands of the manufacturer.

METALLIC FLOWER SPRAYS

At the lower end of the season, we have stocks of metallic flower sprays and other items such as metallic foil, etc. in the hands of the manufacturer.

NALCO SNOWRANGE PANORAMA IN CONTINUOUS ROLLS

No. NP-13—57 in. high, 20 ft. long. It is made on a strong grade of pliable, very heavy paper board. Printed in a modern scenic effect in multi-color combination. The design is continuous along the full length of the roll and all or any portion of it can be used with equally good results. This panorama is so designed that it may be cut in half the length of the roll, making two widths 28½ inches wide or high, the one showing the snowy trees with the hill background and the other portion showing the snow covered mountain peaks and sky line. Thus a 20 ft. roll of this 57-inch material can be cut into two 20 foot rolls each 28½ inches in height and used for valance, case trimming, etc. The foreground can be added to by puffing cloth or paper and making scenic snow covered floor or background, or use Movie Snow Flakes or Frostee

To obtain two 28½" height individual panoramas, suitable for small ledges, show cases, etc., cut Nalco SnowRange Panorama through the 57" height.

Sno Flakes or just a plain white background or floor paper and cover with mica or diamond dust. This is an excellent background for Christmas and Winter sales promotions. Per roll.....

\$3.75

Nalco Panoramas are very practical to use. The paper-board is strong and flexible — easily cut, scored and tacked.

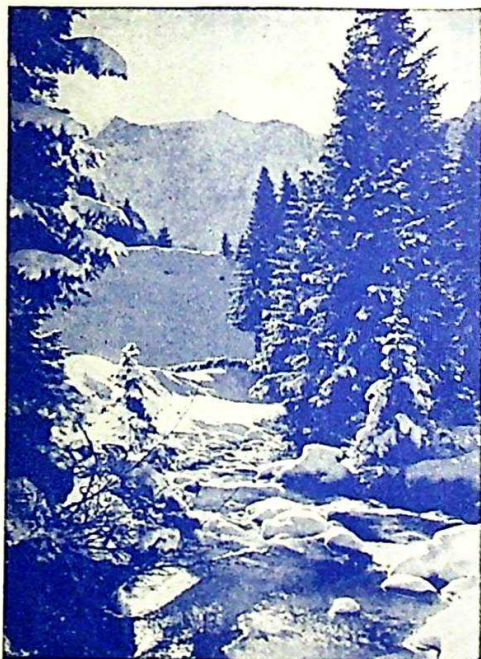

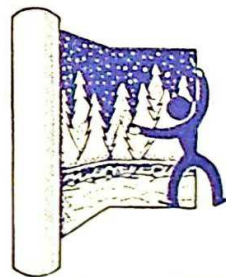

NALCO WINTERSCENE PANORAMA IN CONTINUOUS ROLLS

No. NP-14—57 in. high, 20 ft. long in roll form. Made on a strong grade of pliable paper board. Modern scenic effect multi-color combination. Design is continuous along the length of roll, and all or any portion can be used with equally good results. The bottom ends in white, so that if desired, the whole scene can be raised and more white can be added, to create the effect of additional snow banks. This can be done by using white paper board or material.

NALCO WINTERSCENE PANORAMA is created not only for Christmas sales promotion, but it is suitable for any kind of Winter Display, i. e., Furs, Winter Clothing, Winter Sports Articles, etc. Per roll.....

Hi-Wide and Beautiful

72-inch NU-TRIM

THE MAN-SIZED CORRUGATED

Now, for the first time, display men and advertisers have a Bond Corrugated paper in full 72-inch width. In planning your Seasonable Displays, be sure to include NU-TRIM. It is the only Corrugated with these three outstanding features:

crushing and always retains its original beauty. (See inset in illustration to right.)

around corners and over sharp edges, without breaking.

3. HI-WIDE 72-INCH WIDTH—NU-TRIM has that extra value of a full 72-inch width. Use it for high backgrounds to eliminate piecing and for full columns and pedestals. A full range of beautiful colors in High Fade-Test and Rub-Proof papers. NU-TRIM colors are not calendar stained or dyed, but made in the paper to insure permanency.

This complete line of BOND and METALLIC NU-TRIM offers new fields for the use of corrugated in windows or for interior decorating. SEND FOR FREE COLOR BOOK.

60-inch CORRODEK

The Best Known Name in Corrugated

Beauty, economy and all around usability have brought Corrodek to the top in the display world. It's the display man's most used material—a day-in-and-day-out favorite for every decorative use.

The ideal construction material, Corrodek rolls freely around walls, posts and other display structures. And by scoring or "cross cutting" the tops of corrugations it can be made into fully rigid panels which will stand erect with the corrugations horizontal.

Why Corrodek Is Better

Extra height—extra strength to support its great height—uniform corrugations—no finger markings to mar beauty or weaken—beater colored, not surface dyed—complete range of colors—three dimensional effects, a wide, beautiful range of tonal effects from high-lights to shadows—cutting guides to save time (the back of each roll is marked with handy half-inch and inch guide lines that eliminate measuring and make accurate cutting easy. Two sizes of scallops are also marked on the back).

DEEP-TONE PAPERS

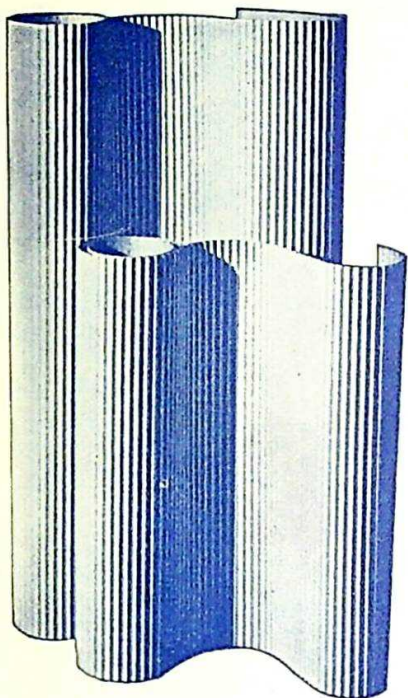

DEEP-TONE is the heavy creped surface material of Tone-Craft and is available in the same colors as Tone-Craft without the corrugated backing. An unusually economical material for draping or covering. Extra heavy creping provides depth of color, with soft, shadowy effects. Glareless—will not reflect light or distract attention. A beautiful fabric-like surface that is resilient and easy to use. Deep-Tone Papers are available in the colors listed above under Tone-Craft and in addition we have a stock of the following:

6-FOOT SATIN FINISH NU-CURVE

It looks like a column from a Grecian Temple . . . with classic styling that gives charm and dignity to displays. Big, sturdy 1-in. flutings with the beauty of expensive wood or plaster forms plus the economy and handling ease of a paperboard material.

Its extra full 72-inch height provides taller displays without splicing. Cuts and folds without cracking . . . will not buckle or sag.

Combines extra height with a satiny, non-reflecting finish . . . both prime requirements for backgrounds.

Easily made into columns, pedestals or plateaus, in any height up to the maximum of 72 inches.

DORIC CAPS and BASES

Now you can have display columns that are correct in design, distinguished in appearance, with record speed in assembly time. Styled after the beautiful Grecian capitals that are considered the finest in architecture, Doric Caps offer to display men an opportunity for unusual display settings.

For the first time column caps and bases are available in simplified construction. Both inner and outer sections are combined in one piece, eliminating the possibility of loss and simplifying installation.

To form a column with these beautiful Doric Caps, simply cut Nu-Curve or Giant Curve to the proper height and width and slip it into the base and set cap on top.

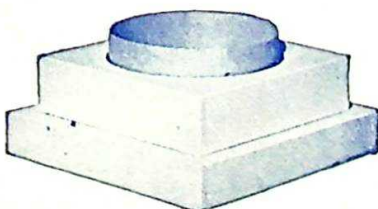

Doric Caps are sturdily made, with white satin finish. Can be easily airbrushed to secure matching color for any setting.

48-in. COROBUFF CORRUGATED

The Standard of Corrugated Display Materials. Double Dyed to Give Extra Fastness and Brilliance of Color.

Corobuff is rapid, economical and practical. Corobuff is a developed display material, apart from the ordinary class of colored corrugated boards and papers. Its character, texture, practicability and beauty have won it a position of pre-eminence in the display field. Its competitors have paid it the compliment of imitation, but genuine Corobuff has never been duplicated. In the wide range of carefully selected Corobuff colors you will find the exact shade to properly set off all kinds of merchandise. The corrugated surface breaks up and diffuses the light, and never produces objectionable glare.

The largest users of Corobuff today are those display men who have used it for a period of years.

IT LOOKS LIKE *Frosted Glass*

When backlighted, Lamilux gives a frosted glass effect because it is highly translucent. Lamilux is made from Pergamyn, a cellulose fibre product.

Lamilux brings you a new translucent, perfect light and color diffusing display material for fabricating displays that radiate light, color and motion.

Hundreds of effects are obtainable from these new display materials.

Colored Lamilux proves to be a perfect background for silhouette letters, because of the broad radiation of light and color—but without the usual spotted effect in close proximity to the globe as is found with some materials used for similar purposes.

Semi-Pleated Lamilux makes ideal Fan Backgrounds in a wide range of colors and widths up to 52 in. The background in the illustration is made of Semi-Pleated Lamilux.

Semi-Fluted Lamilux can be used in a wide range of illuminated and colorful columns, pedestals, plateaus, etc. Furnished in 8 colors in rolls 52 in. by 25 ft.

Displays of combined Pleated Lamilux and fluted or plain colored columns are inexpensive to build and prove to be truly distinctive.

PRESTO TAPE REQUIRES NO MOISTENING

PRESTO TAPE is ideal trim for all types of display work.

PRESTO TAPES are clean, as they require no messy paste or glue to apply.

PRESTO TAPES have a new type adhesive similar to that used on surgical adhesive tape or Scotch Cellulose Tape.

PRESTO TAPES will adhere instantly to any clean surface by exerting pressure with thumb or forefinger along the back of the tape, first removing scrim backing.

PRESTO TAPES will adhere to corrugated board, cloth, wood, glass, metal, etc., and will not curl or wrinkle.

PRESTO TAPES can be easily removed when used on hard surfaces, but should be used only as a permanent decoration over wall papers having a soft fibrous finish as it might lift surface of such papers when removed.

BUTTRESS DISPLAY BOARD

in Stock for Immediate Delivery

The display board with the appearance of fine lacquered wood, which may be painted or decorated by any method. May be used many times, saving time, money and labor.

Fabricated from heavy, tough paper, it will stand alone without support or framework. Will not buckle, swell or warp as it is rolled with the grain or length of the paper and reinforced with heavy brown Kraft paper backing which holds all channels and ribs in place.

The ribs are 1½ inches wide with lapped edges for displays as wide as required.

Buttress Display Board is used for all types of display work, window and interior decorations — booths, floats, pedestals, plateaus, false walls, partitions, ceilings or wherever an ultra modern effect is desired. It is especially adapted for unit displays and backgrounds.

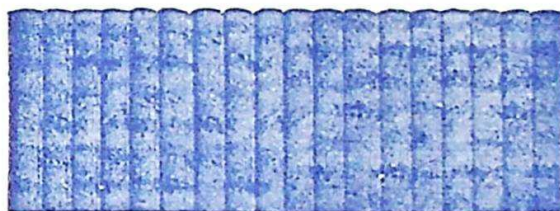

No. BB-2—Flutes are 1½" wide, all reinforced with Heavy Kraft backing. Space between flutes is ½".

SANTA CLAUS HEAD

No. X-235—24 in. high by 14 in. wide, cutout, printed in Red, Blue, Green and Buff Ink on paper. Is made to fit against sash of door or window. Each 10¢

Per dozen \$1.00

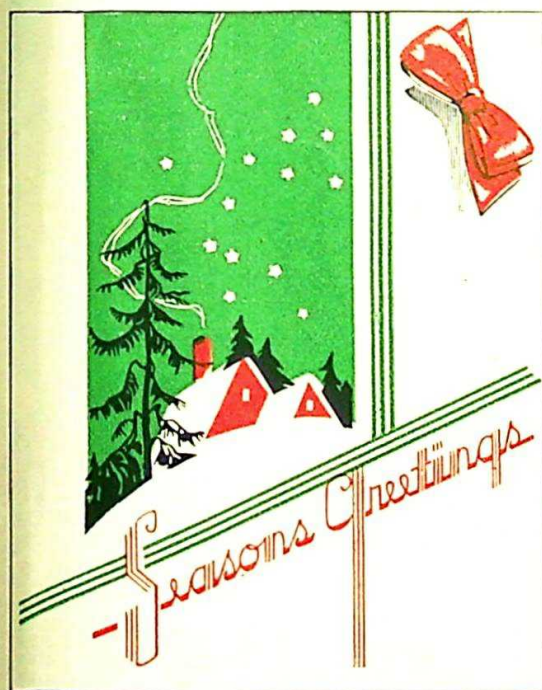

No. X-478—"Three Wise Men" Giant Background Poster. This beautiful Biblical scene is produced on a deep midnight blue background with rich red, brown and green tones. This poster is 50 inches wide and 38 inches deep, and can be attached as is to a window background, side wall, or used as a ledge trim; also it can be mounted on heavier board. Price, each 85¢

WINDOW DECORATION

No. X-440—Size as laid out in above illustration 80 inches wide and 20 inches deep. Printed in Red and Green Ink on White Paper. Made up in five pieces, the center section from large bell to large bell is 40 inches wide and 13 inches deep, then there are four small sections each 20 inches in length. The entire five pieces can be put across the top of a large window and would measure 120 inches in length, or could be used with just the center section at the top of window with the four smaller pieces as side sections so that it will fit a window from 40 to 50 inches wide and 40 inches deep, or either of the small sections could be entirely eliminated. Price per set, complete 40¢

GIANT GREETING CARD TYPE POSTER

No. X-443—38 inches wide and 50 inches tall, printed in full color on substantial poster stock. Can be attached to backgrounds or walls or can be mounted on heavier cardboard. The light red bow is a separate item which fits into two slots in the poster giving an unusually attractive depth effect. This is a new, exclusive item. Each 85¢

Owing to Lack of Space
to completely illustrate all of our seasonable
sale material such as

**PENNANTS
WINDOW TRIMS
STREAMERS
PRICE CARDS**

we are listing on these three pages 26 sets of promotional materials. We merely show a miniature reproduction of the 14 x 28 paper pennants to give you an idea of the exact coloring of all the other items available. The materials listed on these three pages are all in the same sizes and styles as shown on the preceding pages of this catalog which illustrate all the items comprising a set.

128 Different Titles

In addition to the sales promotional materials illustrated in this catalog we have in stock a total of 128 different sales promotion titles.

Silvertipt Blunt Point Pin Tickets

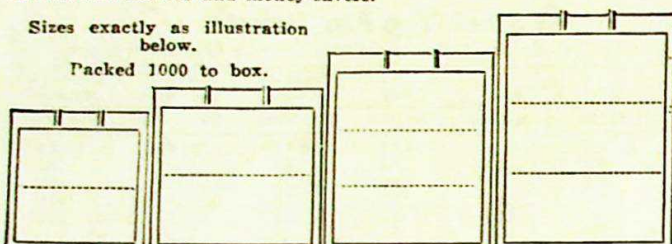

The greatest improvement ever made in pin tickets. Silvertipt Pins with a perfectly round attached tip, a tip so perfect that it is harmless even to delicate fabrics and to the fingers, no sharp points to fear or interfere, making Silvertipt the easiest and fastest to attach of any pin tickets ever produced. The two pins are made of one-piece of single wire, which is the only method for producing slender,

yet strong, pins attached firmly to the tickets. They have a non-rust finish as smooth as polished silver—no possibility of catching a thread or injuring the merchandise. Adopt them now—they are time-savers, merchandise-savers and money-savers.

Sizes exactly as illustration below.

E-Z-ON SAFETY PINLESS TICKETS

The E-Z-On Safety Pinless Marking Ticket is designed especially for use in marking articles made from fine fabrics or other materials that might be injured by the prongs of the standard pin ticket. It is particularly desirable for the marking of sheer hosiery, fine lingerie, silks and linens and leather goods, shirts, gloves, caps, belts, knit goods, and all items of infants' clothing. The E-Z-On is quickly and easily attached. It is easily and quickly removed. It will not injure the finest material. It has no pins to prick the fingers. It has rounded corners.

The method of attaching the E-Z-On Ticket is simplicity itself. Hold the ticket face downward, with the forefinger on top, then draw the fabric up under the clip. This is clearly shown in the illustration.

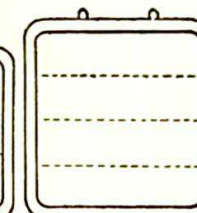

Packed 500 to box.

The New Carter's VelVel Tempera Colors

Are Used by Nationally Known Poster and Show-Card Sign Men

They are made from the best pigments obtainable and contain no fillers. They are ground unusually fine and form a rich, creamy consistency. They are ready to use instantly after a slight stirring and may be thinned down with water if desired. They flow freely from the brush and cover thoroughly in one coat.

They dry quickly with a flat, even surface which will not chip or peel off. They are thoroughly opaque and one color may be brushed over another without change of color strength.

Speedball Flicker Pens

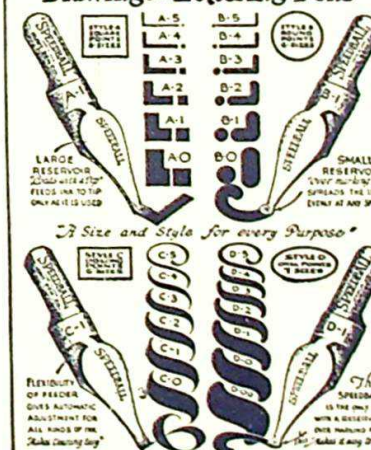

Use Flicker Style Speedballs Just as You Would the Regular Style B Pens. They load by dipping and will handle a much larger supply of ink without blotting. Both reservoirs are hinged so that they will flick open for speedy cleaning simply by lifting the top feeder, and will snap back into perfect alignment ready for use. Flicker feeders are made of steel and hold their shape for hundreds of cleanings. This flexible action makes it possible to use either black or colored inks without special adjustments. The larger sizes are all fan slit to equalize the pressure on the nibs and to distribute the ink more uniformly. The marking tips of the 0 and 1/2 pens are grooved to spread the ink over the entire marking surface and give sharper, better formed strokes.

SPEEDBALL LETTERING PENS

No. CW-200—The Speedball is the fastest and most easily manipulated drawing and lettering pen ever devised. Each pen is equipped with the faultless double reservoir ink retainer. It loads with a dip and automatically regulates the flow of ink or thin opaque colors. The auxiliary reservoir over the tip spreads the ink evenly over the entire marking surface and insures a non-flooding stroke at any speed; it produces a stroke of uniform thickness—up-stroke, down-stroke or laterals. It is particularly adapted to the writing of show cards. Made in 3 different styles and 6 sizes of each style. (Fit any penholder.)
